# Mathematical Modeling, Book 3 Teacher's Resource Supplement 

## Introduction

This package has been developed by a team of classroom teachers who came together to discuss how best to address all of the Mathematics 12 and Advanced Mathematics 12 outcomes within the minimum time requirement of 110 hours and to develop materials to assist teachers in this regard. It has been adapted to reflect the changes to the Mathematics 12 and Advanced Mathematics 12 curriculums.

## Description

The material in this package is designed to be inserted into the appropriate section of Mathematical Modeling, Book 3: Teacher's Resource. Each section of the supplement is on a new series of pages and can be inserted into the Teacher's Resource at the page indicated in the top right-hand corner. Each section in the supplement corresponds to a section in the student textbook, Mathematical Modeling, Book 3. Each section consists of a chart. Each row in the chart represents a given activity or group of questions. The rows have either a white or a grey background; white indicates that the activity is meant for all students and grey indicates the activity is recommended for students in Advanced Mathematics 12 only.

Every chart has three columns. The first column lists all the activities contained within the main body of the textbook. The second column lists the outcome(s) being addressed by the particular activity or group of questions. These outcomes are listed to make it easy to see that they are all being addressed by the suggested activities. The third column contains notes or suggestions that may help save class or preparation time.

Investigations, Focuses, Investigation Questions (IQ), Focus Questions (FQ), and Check Your Understanding questions (CYU) are the most common exercises listed in the first column of the chart. Most Investigations are recommended to be completed as indicated in the textbook; others include a note that the investigation is optional or a note or suggestion to change a particular aspect of it. Focuses are primarily information to be given to students that may be delivered using the teacher's own methods. See the notes beside each focus for more details.
$\mathrm{IQs}, \mathrm{FQs}$, and CYUs are listed in three different formats. If they are written in Univers 45 light, bold text (e.g., 1, 2, 3), it is recommended that these questions be included to address the related outcomes.

## Explanation

Check Your Understanding question 27 is strongly recommended for all students.

Check Your Understanding question 28 is strongly recommended for students taking Advanced Mathematics 12.

If question numbers are written in italicized Garamond text (e.g., 1, 2, 3), they may be assigned if time permits. All outcomes can be addressed without completing the questions listed in this format.

Sample
CYU 22

## Explanation

Check Your Understanding question 22 is for all students and can be completed if time permits.

If a question number has a strike through it (e.g., $1,2,3$ ), then we do not recommend this question. Questions are struck because they are problematic in some way.

Sample
FQ $34,35,36$,
37

## Explanation

Advanced Mathematics 12 Focus Questions 34, 35, 36, and 37 are not recommended for students.

## Additional Comments

It is important to note that the teachers involved in this project offer these recommendations as suggestions only, as they believe there are many different ways to approach curriculum delivery.

If you have any comments or suggestions about the material presented in this Supplement please contact Donna Karsten by email at karstend@gov.ns.ca.

## Chapter One

Quadratics

### 1.1 Number Patterns

| Textbook Items |  | Outcomes | Notes/Suggestions |
| :---: | :---: | :---: | :---: |
| Investigation \# 1 |  | C4 |  |
| IQ | 1 | C4, A7 |  |
| IQ | $\begin{aligned} & \mathbf{2 , 3}, 4, \mathbf{5}, \\ & \mathbf{6} \end{aligned}$ | C4 |  |
| CYU | 7, 8 | C4 |  |
| CYU | $9(\mathrm{a}, \mathrm{c})$ | C4 |  |
| CYU | 10, 11 | C4 |  |
| CYU | 12, 13 | C4, C29 |  |
| CYU | 14, 15 | C4 |  |
| CYU | 16 | C4 |  |
| Investigation \# 2 |  | C4 | Change wording in Procedure A to ...Use diagrams to find the number of ways Alice and Beatrice can buy lunch from 2 outlets, 3 outlets, 4 outlets, and 5 outlets. |
| IQ | 17, 18, 19 | C4 |  |
| IQ | 20 (a, b) | C3 | Change: Only necessary for students in Advanced Mathematics 12. <br> Use TI-83 for this question. |
| IQ | 21 (a) | C4 |  |
| IQ | 21 | C4 |  |
| CYU | 22 | C4 |  |
| CYU | 23 (a, b) | C4, C3, C29 | Do only two of the five equations. |
| CYU | 23 (c, d) | C4, C3, C29 | Do six terms instead of ten. |
| CYU | 24, 25 | C4 |  |
| CYU | 26 | C4 | Do six terms instead of ten. |
| CYU | 27 | C4 | Do only one part of this question. |

| Textbook Items |  | Outcomes | Notes/Suggestions |
| :---: | :---: | :---: | :---: |
| CYU | 28 | C4 | Assign after CYU 27 is reviewed. |
| CYU | $\begin{aligned} & \mathbf{2 9 , 3 0}, 37, \\ & 32 \end{aligned}$ | C4 | Q29(b) Do six terms. |
| CYU | 33 | C4 | Hint: Use $t_{n}=a n+b \quad t_{n}=c n+d$ |
| FOCUSA |  |  |  |
| FQ | $\begin{aligned} & 34,35,36, \\ & 37 \end{aligned}$ |  |  |
| CYU | 39,40 | C10Z |  |
| CYU | 41 | C10Z | Do this question in class as it does not have increments of one. Use finite differences or matrices to complete this question. |
| CYU | 42 | C10Z | "Split Screen" feature on the TI-83 can be used for this question. |
| Chapter Project may be done using the same method as in CYU 41. |  |  |  |
| Students may benefit from practising additional questions similar to CYU 41. |  |  |  |

## Quadratics

### 1.2 Non-Linear Relationship and Function

| Textbook Items |  | Outcomes | Notes/Suggestions |
| :---: | :---: | :---: | :---: |
| Investigation \# 3 |  | C1 |  |
| IQ | 1, 2, 3, 4 | C1 | Have students use TI-83 to check their answers. |
| CYU | 5 | C3, F1 | This is a good place to start this section. Good TI-83 practice: students get exposure to pictures and window setting. Ask students to determine domain and range throughout this section. |
| CYU | 6 | C1 |  |
| CYU | 7 | C1 |  |
| CYU | 8 (a) | C1 | Use finite differences or matrices for this question. |
| CYU | 8 (b) | C1 |  |
| CYU | 9 | C1 | Use finite differences or matrices for this question. |
| FOCUS B |  | C29 | It works well if each group does one and then shares with the class. |
| FQ | 10, 11 | C1, F1, C29 | Use TI-83 for these questions. |
| FQ | $\begin{aligned} & \text { 14, 15, } \\ & 12,13,16 \end{aligned}$ | F1 |  |
| CYU | 17 | C29 |  |
| Look at Chapter Project for this section, p. 23 |  |  |  |
| Investigation \# 4 <br> (Optional) |  | C8, C1, C3, F1 |  |
| IQ | 18, 19 | A7 |  |
| CYU | $\begin{aligned} & \text { 20, 21, 22, } \\ & 24, \\ & 25 \end{aligned}$ | C1 |  |
| CYU | 23 |  |  |

| Textbook Items | Outcomes | Notes/Suggestions |
| :--- | :--- | :--- |
| CYU 26 | C1 | Change: Only necessary for students in Advanced <br> Mathematics 12. <br> Find equations that describe the situation if the sum <br> of the area of the two is to be a minimum. <br> Hint: Start diagram in class before assigning for <br> homework. |
| GYU 27 |  | The answer in the Teadher's Resoumeshould be <br> $(-1,0)$. |

## Quadratics

### 1.3 Properties of Graphs of Quadratics Functions

| Textbook Items |  | Outcomes | Notes/Suggestions |
| :---: | :---: | :---: | :---: |
| Focus C |  | C31 | Give this information using your own method. Cover answers to FQ 1-5. |
| CYU | 6 | C31, C9 | This question has many parts, select only enough to meet the needs of the students. |
| CYU | 7 | C31 | This question has many parts, select only enough to meet the needs of the students. |
| CYU | 8 | C31, C32 | This question is important. It is necessary to discuss the conclusions in class. <br> Extension Question - PreCalaulis Mathematics One by McK illop \& Kelley, page 66, question 8. |
| CYU | $\begin{aligned} & 9,10, \\ & 11(e) \end{aligned}$ | C31 |  |
| CYU | 12, 13 | C31 |  |
| Focus D |  | C9 | Focus D is strongly recommended. Algetiles or other pictorial representations are necessary. |
| FQ | 14, 15, 16 | C9 |  |
|  | $\begin{aligned} & 17 \\ & (a, b, e) \end{aligned}$ | C9, B1, A7, C31 | Do an analysis of these equations: domain, range, $\mathrm{max} / \mathrm{min}$, vertex, transformations, line of symmetry, zeroes, independent, dependent, and mapping rule. |
| FQ | $\begin{aligned} & 18, \mathbf{1 9}, \\ & \mathbf{2 0}, 21,22 \end{aligned}$ | C9 | Q19 Use TI-83 to see pictures and set windows. Q20 Do some parts (e.g. c, e, and f) and do an analysis as above. |
| CYU | 23 (b, e) | C9 | Ask for a mapping rule. |
| CYU | 24 | C9 | Change: Only necessary for students in Advanced Mathematics 12. |
| CYU | 25 | C9 |  |

| Textbook Items |  | Outcomes | Notes/Suggestions |
| :---: | :---: | :---: | :---: |
| CYU | 26 | C9 | Ask students to determine the domain and range. Students may have different interpretations. The given answer is 11.2 , but students could argue that 8.1 is correct. |
| CYU | 27 | C9, C8 |  |
| CYU | 28 | C9 | Correction to TR: <br> ...The area of the rectangle A is $3\left(\frac{800-4 x}{6}\right) x=400 x-2 x^{2}$ |
| CYU | 29 | C9, C8 |  |
| CYU | 30 | C9 |  |
| CYU | $\begin{aligned} & 31,32(\mathrm{a}, \\ & \mathrm{b}, \mathrm{e}, \mathrm{f}), \\ & 33 \end{aligned}$ | C9 | $\begin{aligned} & \text { Suggested order: p. } 72 \text { Q4 / p. } 44 \text { Q6 / } \\ & \text { p. } 54 \text { Q42-43 / p. } 35 \text { Q31 / p. } 73 \text { Q13 / } \\ & \text { p. } 74 \text { Q24 } \end{aligned}$ |
| CYU | 34 | C9 | Use transformational form. Use the word "show" not "prove." |
| Focus E Method 1 |  | C1 |  |
| Focus E Method 2 |  | C1 | At this point in the text book, the variables in the transformational form of the quadratic equation change from $\mathrm{a}, \mathrm{h}, \& \mathrm{k}$ to $\mathrm{k}, \mathrm{q}, \& \mathrm{p}$. See key strokes for TI-83. Additional Resource - Math is 6 by Ebos and Tuck |
| FQ | $\begin{aligned} & 35,36,37, \\ & 38 \end{aligned}$ | F1 |  |
| CYU | 39 | B1 |  |
| CYU | 40 | B1 | Good question if students are strong with TI-83. |
| CYU | 41,42 (d) | B1 |  |
| CYU | $\begin{aligned} & 43,44, \\ & 45 \end{aligned}$ | C23 | Do two of these three questions. This is a good time for a test. |
| Challenge P $35 \mathrm{a} / \mathrm{b}$ |  |  | Do this challenge on the board; it is not necessary to have students copy it into their scribbler. |

## Quadratics

### 1.4 Roots of Quadratic Equation

| Textbook Items | Outcomes | Notes/Suggestions |
| :---: | :---: | :---: |
| Focus F | C22 | Give this information using your own method. Use Algetiles for method 2. <br> Clarification: The triangle, a visual representation of $(S=d / t)$, is used to help students rearrange the formula. In order to solve for a particular variable, cover the unknown variable. The remaining variables are arranged in operational position. Specifically, if you cover the (S) you get (d) over ( t ; so $\mathrm{S}=\mathrm{d} / \mathrm{t}$; if you cover the ( t ) you see (d) over ( S ); so $\mathrm{t}=\mathrm{d} / \mathrm{S}$; and if you cover the (d) you see ( S ) times ( t ); so $\mathrm{d}=\mathrm{St}$. |
| FQ 1, 2 | C22 |  |
| FQ 3 | C22 | Change: Only necessary for students in Advanced Mathematics 12. |
| FQ $\quad \mathbf{4}(\mathbf{b}, \mathbf{d}), 5$ | C22 | Question 5 might be good for homework |
| FQ 6,7 | C22 |  |
| CYU 8,9,10 | C22 | Do one or two of these questions. |
| CYU 11 | C22 |  |
| CYU 12 | C22 | This question has many parts, select only enough to meet the needs of the students. |
| CYU 13,14 | C22 |  |
| CYU 15,16, <br>  $\mathbf{1 7}(\mathbf{a}, \mathbf{b})$ <br>  $\mathbf{1 8}, 19$ | C22 | To do \# 18, it is strongly recommended that a speed/ distance/ time table be set up similar to that on page 88 of Teadher's Resounc. |
| CYU 20 | C22 |  |
| CYU 21, 22 | C22 |  |
| Investigation \# 5 | B10 |  |

| Textbook Items |  | Outcomes | Notes/Suggestions |
| :---: | :---: | :---: | :---: |
|  | 23 | B10 | Mathematics 12 students can do this with teacher. Advanced Mathematics 12 students should do this on their own. <br> Use a numeric example and move to general case. Make sure student remembers addition of fraction. |
|  | 24 | B10 |  |
| IQ | 25 | B10 |  |
|  | 26, 27 | B10, B11Z | These questions have many parts, select only enough to meet the needs of the students. |
| IQ | 28 | B10 |  |
| IQ | 29 | B10 | Rewording: "A complex number can be represented ..." |
| Did Y | K now? |  | Clarification: For instance, in electronics, capacitance and inductance in filters, tuners, and other alternating-current circuits can be represented as resistances, using complex numbers. |
| $\mathrm{CYU}$ | $\begin{aligned} & 30(a, c, \\ & g) \end{aligned}$ | B10, C22, A9 |  |
| CYU | 31, 32 | B10 | Question 32 has many parts, select only enough to meet the needs of the students; including part (e). |
| CYU | 33 | C15 |  |
| Focus |  | C22 | Teach this your own way. |
| $\mathrm{FQ}$ | 34, 35 <br> (a), 36 <br> (a) | C22 |  |
| CYU | 37, 38, 39 | C22, B10 |  |
| CYU | 40 | C22, B10 | Use TI-83. |
| CYU | 41 | C22, B10 |  |
| CYU | 42, 43 | C22, B10 |  |

## Quadratics

### 1.4 Roots of Quadratic Equation

| Textbook Items | Outcomes | Notes/Suggestions |
| :---: | :---: | :---: |
| CYU 44,45 | C22, B10 |  |
| CYU 46,47 | C22, B10 |  |
| CYU 48 or 49 | C22, B10 |  |
| CYU 50 | C22, B10 | Change: For students in Advanced Mathematics 12. |
| Investigation \# 6 | A4 | Procedure A - Number the equations. Put in TI83. If students are working in groups, one question can be assigned to each group and then shared with the class. |
| $\begin{array}{ll} \text { IQ } & 51,52,53 \\ 54,55 \end{array}$ | A4 |  |
| $\begin{array}{ll} \text { CYU } & \mathbf{5 6 , 5 7} \\ & 58,59 \end{array}$ | B10, C22 |  |
| CYU 60 | B10, C22 | Do it four ways. |
| CYU 61 | A4 | Change: Only necessary for students in Advanced Mathematics 12. |
| $\begin{array}{\|ll} \mathrm{CYU} & \mathbf{6 2 , 6 3}, \\ \mathbf{6 4} \end{array}$ | A4 |  |
| Investigation \# 7 |  | There are no SCOs that match this activity. |
| IQ 68-72 |  | There are no SCOs that match these question. |
| Chapter Project |  |  |
| Case Study 1 |  | Part (c) Correction - ... quadratic function in part <br> (a) is negative. <br> Omit Part (g). |
| Case Study 2 |  |  |
| Case Study 3 |  | Makes a good assignment, if your students explain the math as they go. |

2.1 Describing Rate of Change (Optional)

| Textbook Items |  | Outcomes | Notes/Suggestions |
| :---: | :---: | :---: | :---: |
| Investigation\# 1 |  | C17 |  |
| IQ | 1,2,3 | C17, B4, C30 |  |
| IQ | 4,5 | C17, B31 |  |
| CYU | 6 | C17, B4 |  |
| Foas A |  | C17, C16, C30 |  |
|  | 7, 8, 9 | $\begin{aligned} & \text { C8, C16, C17, } \\ & \text { C16, C30 } \end{aligned}$ | There are many questions in this section, select only enough to meet the needs of the students. |
| $F Q$ | 10, 11, 12 | $\begin{aligned} & \text { C10, B4, C17, } \\ & \text { C30, B4 } \end{aligned}$ |  |
| CYU | 13, 14, 15 | C17, B4, C16 |  |
| CYU | 16, 17, 18 | C16, C30, C17, B4 |  |
| CYU | 19, 20, 21 | C17, C4, C30, C16 |  |
| CYU | $\begin{aligned} & 22,23, \\ & 24,25 \end{aligned}$ | C17, B4, C30, C16 |  |
| Chapter Projets |  | C17 |  |

## Rate of Change

2.2 Describing Instantaneous Rate of Change (Optional)

| Textbook Items |  | Outcomes | Notes/Suggestions |
| :---: | :---: | :---: | :---: |
| Investigation \# 2 |  | C18, C16, C27 | Do not do procecthe A . Demorstrate on an averhead or give on a handout with all the graphs from Mr. L am's trip. |
| IQ | 1,2,3 | C1, C28, C16, C17 |  |
| IQ | 4, 5, 6 | C27 |  |
| CYU | 7, 8 | C27 |  |
| Foas B |  | C18 | Follourup A divity: Geometry Sketh Padtan line demonstration. |
| $F Q$ | 9, 10, 11 | C21, C18, C30 |  |
| $F Q$ | 12, 13 | C27, C18 |  |
| CYU | $\begin{aligned} & 14,15, \\ & 16 \end{aligned}$ | C28, C18, C30 |  |
| CYU | $\begin{aligned} & 17,18, \\ & 19 \end{aligned}$ | C28, C18, C30 | There ane many questions in this section, select only enough to meet the needs of the students. |
| CYU | $\begin{aligned} & 20,21, \\ & 22 \end{aligned}$ | C28, C18, C30 | There ane many questions in this section, select only enough to med the needs of the students. |
| CYU | 23 | C18 | Clarification The formula in this question may be better stated as $A=1100 m^{2 / 3}$, as this allous for an easier understanding of the same of the formula $\left(A \sim b^{2}, m \sim b^{3}\right)$. |
| CYU | 24, 25 | C18, C30 |  |
| CYU | 26, 27 | C16, C28 |  |
| CYU | 28 | C16, C28 | The formula given is not consistent uith context. |
| CYU | 29 | C16, C28 |  |
| CYU | $\begin{aligned} & 30,31,32, \\ & 33,34,35 \end{aligned}$ | C16, C28, C30 |  |
| Chapter Project |  |  |  |

### 3.1 A Different Type of Growth

| Textbook Items |  | Outcomes | Notes/Suggestions |
| :---: | :---: | :---: | :---: |
| Focus A |  | C2 | This focus works well if talked through as is. |
| FQ | 1, 2 | C2, C29, B2 |  |
| Investigation \# 1 |  | C2, C4 |  |
|  | 3, 4, 5, 6 | C2, C4 | To answer 5(b) refer to sequence in 5(a)? |
| CYU | 7, | C4 |  |
| CYU | 8, | C4 | This question has many parts, select only enough to meet the needs of the students. <br> Students in the Advanced course should do ( $\mathrm{h}, \mathrm{i}, \mathrm{j}$ ). |
| CYU | 9 , | C4 | Answers in the back of book are wrong; see TR for correct answers. |
| CYU | 10, 11 | C4 |  |
| CYU | 12, 13 | C2 | Only one of questions 12 or 13 is necessary to address the outcome. |
| CYU | 14 | C4 |  |
| Investigation \# 2 |  | C3, C33 | Omit Part F |
|  | 15, 16 | C4, B2 | Questions can be omitted if answers are discussed during in class development. |
|  | 17 | C4, C33 | Questions can be omitted if answers are discussed during in class development. |
|  | 18, 19 | C3 | Questions can be omitted if answers are discussed during in class development. |
|  | 20, 21 | C33 | Questions can be omitted if answers are discussed during in class development. |
| Focus B <br> Exponential <br> Functions |  | C2 | This makes a good homework activity. |
| $\mathrm{FQ}$ | $\begin{aligned} & 22,23, \\ & 24,25, \\ & 26,27, \\ & 28 \end{aligned}$ | C2 |  |

| Textbook Items |  | Outcomes | Notes/Suggestions |
| :---: | :---: | :---: | :---: |
| CYU | 29 | C29, A5, C33 | This question has many parts, select only enough to meet the needs of the students. |
| CYU | $\begin{aligned} & 30,31, \\ & 32 \end{aligned}$ |  | These questions have many parts, select only enough to meet the needs of the students. |
| CYU | 33 |  | This questions provides an opportunity to do some algebra. |
| Investigation \# 3 |  | C33 | Procedure A- Use Domain that is given in question 35. |
|  | $\begin{aligned} & 34,35, \\ & 36,37 \end{aligned}$ |  |  |
| Focus C |  |  |  |
| FQ | 38, | A5 | Students can be asked to do one of each type or all parts to practise skills. |
| FO | 39 | A5 |  |
| FQ | 40 | A5 |  |
| IQ | 41, 42, <br> 43, 44, 45 | C2 |  |
| Investigation 4 |  |  | Note: This is the first time Domain is mentioned in chapter. |
|  | $\begin{aligned} & \mathbf{4 6}, \mathbf{4 7} \\ & 48,49,50 \end{aligned}$ | C2 |  |
| CYU | 51 | A5 | This questions provides an opportunity to do some algebra. |
| CYU | 52 | A5 |  |
| CYU | 52(d) | A5 |  |
| CYU | 53, 54 | A5, C2 |  |
| Chapter Project |  |  | OMIT Part (f) |

* To address A7 teachers need to ask for Domain in set notations in all possible places.

Exponential Growth

### 3.2 Exponential Functions

| Textbook Item |  | Outcomes | Notes/Suggestions |
| :---: | :---: | :---: | :---: |
| Investigation \# 5 |  | C3 | Procedures A: Use of technology is recommended. |
| IQ | $\begin{aligned} & 1,2,3,4, \\ & 5,6,7 \end{aligned}$ | C11, C34 |  |
| IQ | 8 |  | Opportunity exists here to discuss drug use. |
| CYU | $\begin{aligned} & 9,10,11, \\ & 12 \end{aligned}$ | C11, C3 |  |
| Investigation\#6 |  | C3, C2 | Not necessary to address outcomes. |
| IQ | $\begin{aligned} & 13,14,15, \\ & 16,17,18 \end{aligned}$ | F1 |  |
| IQ | 19, 20, $21$ | C2 |  |
| CYU | 22, 23 | C2 | Do one of questions 22 or 23 using technology. |
| CYU | 24 | C2, F1 | The use of technology is recommended. |
| CYU | 25 | C2, F1 | Do question 25 after question 20. |
| Investigation \# 7 |  | F1, A7 |  |
| $\mathrm{IQ}$ | $\begin{aligned} & 26,27,28, \\ & 29 \end{aligned}$ | C34 | If question 26 is done as class discussion, then Investigation \# 7 is not necessary. |
| CYU | $\begin{aligned} & 30,31, \\ & 32,33,34 \end{aligned}$ | A5, C34, C2, A7 | If question 30 is done in class before questions $26,27,28$, 29 , then these questions can be done for homework. |
| CYU | 35, 36, 37 | C2 | Question 36 makes a good quiz question. |
| CYU | 38 | C2 |  |
| CYU | 39 | C2 |  |
| Investigation \# 8 |  | F1 | Talk about investigation before giving out the data. Alternative resource - Pre-Calaulus Mathematics Oneby McKillop and Kelley, section 9.7. |
| IQ | 40, 41 | C34, C33 |  |

| Textbook Item |  | Outcomes | Notes/Suggestions |
| :--- | :--- | :--- | :--- |
| IQ | 42 | C34, C33 |  |
| CYU | $\mathbf{4 3 , 4 4 ,}$ <br> $\mathbf{4 5 , 4 6}$ | C34, C33 |  |
| CYU | $\mathbf{4 7}$ | C11 |  |

Chapter Three
Exponential Growth

### 3.3 Graphing Exponential Functions

| Textbook Item |  | Outcomes | Notes/Suggestions |
| :---: | :---: | :---: | :---: |
| Investigation \# 9 |  | C35Z, C34, C11 |  |
| CYU | 1, 2, 3 | C11, C35Z | Question 3 is important to discuss. It can be done for homework. |
| Focus D Graphing Using Transformations |  | C11 | This can all be done in single class. |
| FQ | 4 | C-11 | This makes a good homework question. |
| Investigation \# 10 |  | C34 |  |
| IQ | 5 | C34 |  |
| Focus E More Graphing with Transformations |  | C34 | During this focus students should be asked to complete a full analysis but can sketch the function rather than drawing an accurate graph. |
| CYU | 6,7 | A7, C 35Z |  |
| CYU | 8 | A7, C 35Z | This question has many parts, select only enough to meet the needs of the students. |
| CYU | 9, 10 | A7, C 35Z |  |
| CYU | $\begin{aligned} & 11,12,13, \\ & 14,15 \end{aligned}$ | A7, C33, C34 |  |
| CYU | 16 | A7, C33, C34 | This question has many parts, select only enough to meet the needs of the students. |
| CYU | $\begin{aligned} & 17,18,19, \\ & 20 \end{aligned}$ | C2 |  |
| CYU | $\begin{aligned} & 21,22, \mathbf{2 3} \\ & 24,25 \end{aligned}$ | C2, C34 |  |
| CYU | 26, 27 | C34 |  |

## Chapter Three

### 3.4 Number Patterns

| Textbook Items |  | Outcomes | Notes/Suggestions |
| :---: | :---: | :---: | :---: |
| Investigating \# 11 |  | C2, C11 | This investigation is not needed to address the outcomes; they are addressed on pages 120-123. |
|  | 1,2, 3, 4, 5 | B12, C24 |  |
| IQ | 6, 7 | C24 |  |
| Focus F Working with Powers |  | A5 | This Focus works well in small groups. |
| FQ | 8, 9, 10 | C24, B1, C25 | This is a good place for groups to present answers on the overhead. |
| CYU |  | C11, C24 | Do a few examples here that will bring out the idea of no solutions. |
| CYU | $\begin{aligned} & \text { 16, 17, } \\ & \text { 18, 19, } \end{aligned}$ | C24, C25 | Some of these questions can be done depending on the amount of practice required by the students. <br> Additional Resource - Math Is 6 by Ebos and Tuck, pages 168-171. |
| CYU | $\begin{aligned} & 20,21, \\ & 22,23 \end{aligned}$ | C2, C25 | This section contains many questions, select only enough to meet the needs of the students, include 20 and 23 . |
| CYU | 24, 25 | C2, C25 | This section contains many questions, select only enough to meet the needs of the students. |

Exponential Growth

### 3.5 Rational Thinking

| Textbook Items | Outcomes | Notes/Suggestions |
| :---: | :---: | :---: |
| Investigation \# 12 | A5 |  |
| $\begin{array}{ll} \text { IQ } & \mathbf{1 , 2 , 3}, \mathbf{4} \\ & 5 \end{array}$ | B12 | These questions have many parts, select only enough to meet the needs of the students. |
| CYU 6, 7, 8,9 | B12 |  |
| CYU 10 | B12 | This question makes a good homework activity. |
| $\begin{array}{ll} \mathrm{CYU} & 11, \mathbf{1 2}, \\ & \mathbf{1 3 , 1 4 , 1 5} \end{array}$ | $\begin{aligned} & \text { C24, B1, } \\ & \text { C2, C11 } \end{aligned}$ |  |
| $\begin{array}{ll} \mathrm{CYU} & 16, \mathbf{1 7}, \\ & \mathbf{1 8}, 19 \end{array}$ | C2, C25, C11 | A good technology extension could be the use of the TVM solver on the TI-83. |
| CYU 20, 21 | C25 |  |
| Focus G Laws of Exponents | B12 | This focus works well if talked through as is. |
| CYU 22,23 | A5, B12, C2 | These questions have many parts, select only enough to meet the needs of the students. |
| CYU 24,25 |  | All of this question should be completed by the students. |
| CYU 26 |  | This question should be discussed in class. |
| $\begin{array}{\|ll} \mathrm{CYU} & \mathbf{2 7 , 2 8} \\ 29,30 \end{array}$ | C24 | It is recommended that question 35 be completed before question 30 . |
| CYU 31, 32,33 | C24 |  |
| CYU 34, 35,36 | C24 | It is recommended that question 35 be completed before question 30 . |

Chapter Three
3.6 Going in Reverse

| Textbook Items | Outcomes | Notes/Suggestions |
| :---: | :---: | :---: |
| Focus H <br> Populations <br> Explosion |  |  |
| FQ 1,2,3 | C2, C19 |  |
| FQ 4,5,6 | C19 |  |
| Focus I Inverses |  | This focus can all be done in one class plus homework. This focus has many parts, select only enough parts of each section to meet the needs of the students. |
| $\begin{array}{ll} \text { FQ } & \mathbf{7 , 8}, \mathbf{9} \\ \mathbf{1 0} \end{array}$ | A5 | It is recommended that question 10 be completed before question 9 . |
| CYU 11,12, <br>  13,14, <br> 15  | A5, B1, B12 | This section has many questions, select only enough parts of to meet the needs of the students. |
| CYU 16,17 | C19, B1 | Do all of question 17. |

* An additional resource for this section is Pre-cal Mathematics One by McKillop and Kelley.

Chapter Three
3.7 Laws of Logarithms

| Textbook Items |  | Outcomes | Notes/Suggestions |
| :---: | :---: | :---: | :---: |
| Investigation 13 |  | B13 | For students in the Advanced Course - Start with Question 7 then answer investigation procedures questions. <br> For students in the Academic Course - A class discussion leading students through the investigation may be necessary. |
|  | $\begin{aligned} & 1,2,3,4 \\ & 5,6 \end{aligned}$ | B13, C24 |  |
|  | 7, 8 | B13 |  |
| Focus J Using Laws of Logarithms |  | C2 | Questions 9, 10, 11, 12, 13, and 14 can be done as homework before doing Focus J in class. |
|  | $\begin{aligned} & 9,10,11 \\ & 12,13 \end{aligned}$ | B12, B13, C24 | Question 11 has many parts, select only enough to meet the needs of the students. |
| CYU | 14 | B13 |  |
| CYU | 15,16 | C25 |  |
| CYU | 17 | C25 |  |
| CYU | 18 | C25 | Do this question in class. |
|  | $\begin{aligned} & 19,20, \\ & 21,22 \end{aligned}$ | C25 |  |
|  | $\begin{aligned} & 23, \mathbf{2 4}, \\ & \mathbf{2 5}, 26 \end{aligned}$ | C24 |  |
| CYU | 27 | C2, C25 |  |
|  | $\begin{aligned} & \text { 28, 29, } \\ & \mathbf{3 0}, 31,32 \end{aligned}$ | C25 |  |
| Focus K <br> Logarithmic Scales |  | C25 | This Focus can be discussed in class or read through by students at home. |
|  | $\begin{aligned} & 33,34, \\ & 35 \end{aligned}$ | C25 |  |

| Textbook Items | Outcomes | Notes/Suggestions |  |
| :--- | :--- | :--- | :--- |
| CYU 36, 37 | C25 | This section has many questions, select only enough <br> to meet the needs of the students; making sure a <br> couple of each type is done. |  |
| $\mathbf{C Y U}$$\mathbf{3 8 , 3 9}$, <br> $\mathbf{4 0}$ | C25 | This section has many questions, select only enough <br> to meet the needs of the students. |  |
| CYU | $\mathbf{4 1 , 4 2}$, <br> $\mathbf{4 3}$ | C25 | This section has many question, select only enough to <br> meet the needs of the students. <br> The answer to question 42 is wrong. <br> Correct answer -6.1 years. |

* An additional resource for this section is Pre-cal Mathematic One by McKillop and Kelley, Chapter 9 and Algebra and Trigonometry by Foerster, page 162, questions 6-14.

Chapter Four
Going 'Round in Circles: Circle Geometry

### 4.1 Circle Properties

| Textbook Items |  | Outcomes | Notes/Suggestions |
| :---: | :---: | :---: | :---: |
| Investigation \# 1 |  | E5, E7 |  |
| IQ | 1,2 | E5, E7 |  |
| IQ | 3 | E5, E7 |  |
| IQ | 4, 5, 6, 7 | E5, E7, E12 |  |
|  | 8 | E5, E7, E12 | This question can be a quiz or journal question. |
| CYU | 9, 10, 11 | E7, E12 |  |
| Investigation \# 2 |  | E5, E7 | Do steps A , B, C, D, E, H, and M; steps F, G, I, J, K, and L are redundant. |
|  | $\begin{aligned} & 12,13 \\ & 14,15 \end{aligned}$ | E4, E5, E7 |  |
| CYU | 16, 17, 18 | E4, E5 |  |
| CYU | 19, 20, 21 | E12 |  |
| Focus A Congruent Triangles |  | E5, E11 | Give this information using your own method. |
| $\mathrm{FQ}$ | $\begin{aligned} & 22,23, \\ & 24, \end{aligned}$ | E11 | Additional Resource - Geometry by Moise and Downs. |
| CYU | 25, 26 | E11 |  |
| Focus B Proofs |  | E11 |  |
| FQ | 27, 28 | E7, E11 |  |
| CYU | $\begin{aligned} & \mathbf{2 9}, \mathbf{3 0} \\ & 31,32 \end{aligned}$ | E7, E11 |  |
| CYU | $\begin{aligned} & 33, \mathbf{3 4 ( a )} \\ & 35 \end{aligned}$ | $\begin{aligned} & \text { E4, E } 7, \text { E11, } \\ & \text { E15Z } \end{aligned}$ |  |
| CYU | $\begin{aligned} & 36,37, \\ & 38,39 \end{aligned}$ | E4, E15Z |  |

Chapter Four
Going 'Round Circles: Circle Geometry

### 4.2 Circles on a Coordinate System

| Textbook Items |  | Outcomes | Notes/Suggestions |
| :---: | :---: | :---: | :---: |
| Investigation \# 3 |  | E5, E7 |  |
| IQ | 1,2, 3 | E5, E7 |  |
| CYU | 4, 5 | E5 | It is recommended that these questions are done in the |
| CYU | 6, 7 | E5 | Advanced Mathematics 12 and in this order - 8, 9, and 4 for student in Mathematics 12. |
| CYU | 8,9 | E5, E11 |  |
| Focus C <br> Where Are the Washrooms? |  | D1 | Give this information using your own method or have students do this Focus as is for homework. |
| FQ | 10, 11, 12 | D1 | Q10 Also find the midpoints. |
| FQ | 13, 14, 75 | D1 | Q13 Also find the midpoints. |
| CYU | 16, 17, 18 | D1, E4 |  |
| CYU | 19, 20, 21 | D1 |  |
| CYU | 22 | D1 |  |
| CYU | 23 | D1 |  |
| CYU | 24, 25 | D1 |  |
| CYU | 26, 27 | D1 |  |
| Focus D Chord Properties in a Coordinate System |  | D1, E11, E7 | This focus is not needed to address the outcomes. |
| FQ | 28 | E5 |  |
| CYU | $\begin{aligned} & \text { 29, } 30, \mathbf{3 1}, \\ & \mathbf{3 2} \end{aligned}$ | E4, E15Z |  |
| CYU | 33 | D1, E11 |  |
| CYU | 34, 35 | D1, E11 |  |

| Textbook Items | Outcomes | Notes/Suggestions |
| :--- | :--- | :--- |
| CYU 36,37 | D1, E11 | Question 37 makes a good assignment or quiz <br> question. |

Chapter Four

Going 'Round in Circles: Circle Geometry
4.3 Angles, Arcs, Tangents, and Sectors (Advanced Mathematics 12 only)

| Textbook Items |  | Outcomes | Notes/Suggestions |
| :---: | :---: | :---: | :---: |
| Investigation \#4 |  | E5, E8Z | Procedures: E, H, J, K can be done as a class activity in approximately 15 minutes. |
| IQ | $\begin{aligned} & 1,2,3,4, \\ & \mathbf{5 ( a , b}, \mathbf{b} \end{aligned}$ | E4, E15Z |  |
| IQ | $6,7,8(a,$ <br> d) | E4, E8Z, E5 | It is important to bring definitions to students attention. |
|  | 9, 10, 11 | E4, E8Z, E11 |  |
| CYU | $\begin{aligned} & 12,13, \\ & 14,15 \end{aligned}$ | E4, E15Z, E8Z |  |
| CYU | 16, 17 | E11, E8Z |  |
| Focus E <br> Proving <br> Relationships |  | E5 | This Focus can be read by students focus for homework. |
| FQ | $\begin{aligned} & \text { 18, 19, } \\ & 20 \end{aligned}$ | $\begin{aligned} & \text { E11, E9Z, E8Z, } \\ & \text { E15Z } \end{aligned}$ |  |
| FQ | 18(f) | E11 |  |
| FQ | 21, 22, 23 | E15, E9Z | Question 23 requires a class discussion before it is done. |
| CYU | $\begin{aligned} & \mathbf{2 4}, 25,26, \\ & 27, \mathbf{2 8}(\mathrm{a}, \mathrm{~b}) \end{aligned}$ | E11, E8Z, E15Z | Students in the Advanced Course should do the questions in the following order - 24, 18(a, d), 16, and 33. |
| CYU | $\begin{aligned} & 29,30,31 \text {, } \\ & 32 \end{aligned}$ | E11, E15Z |  |
| CYU | 33 | E11, E15Z, E8Z |  |
| CYU | $\begin{aligned} & 34,35,36, \\ & 37 \end{aligned}$ | E11, E15Z, E8Z |  |
| CYU | 38,39 | E15Z, E8Z |  |
| CYU | 40, 41, 42 | E11, E15Z, E8Z |  |
| CYU | 43 | E15Z, E8Z, E4 |  |

| Textbook Items |  | Outcomes | Notes/Suggestions |
| :---: | :---: | :---: | :---: |
| CYU | 44 | E15Z, E8Z | $\begin{aligned} & \text { Correction in TR p. } 366 \\ & \text { CYU 44(b): } \frac{258^{\circ}}{360^{\circ}}(5)(31.3)^{2}=2206 \mathrm{~cm}^{2} \end{aligned}$ |
| CYU | 45,46 | E15Z, E8Z |  |
| Inwestig | \# ${ }^{5}$ | E 5, E8Z, E9Z | Starting uith Inwestigation 5, the remainder of this setion is qtional. <br> BL M - Start at $E$ |
| $I Q$ | 47 | E 5, E8Z, E9Z | BL M |
| CYU | $\begin{aligned} & 48,49, \\ & 50,51(a) \end{aligned}$ | E4, E 15Z, E9Z | Questions 48(a) and 49 (a) cam be found in the maryin. |
| CYU | 51(b) | E15Z |  |
| Foas F <br> Prowing <br> Propert |  | E11, E9Z | Give this information using your oun method. |
| CYU | 52, 53, 54 | E 11, E9Z |  |
| CYU | 55 | E 11, E9Z |  |
| CYU | 56, 57, 58, | E11, E9Z |  |
| Foas $G$ <br> Tangen <br> Coordin | Properties in a eSystem | $E 5, E 8 Z, D 1$ | Before doing this Foas you may need to raview finding the equation of a line using slope and a point on the line. |
| CYU | $\begin{aligned} & 59,60, \\ & 61,62 \end{aligned}$ | E 11, E 15Z, E9Z |  |
| CYU | 63, 64 | E11, E15Z |  |
| CYU | 65, 66 | E11, E9Z |  |
| CYU | 67 | E15Z, E9Z |  |
| CYU | 68, 69 | E15Z, E9Z |  |

Going 'Round in Circles: Circle Geometry
4.4 Transforming Circles (Advanced Mathematics 12 only)

| Textbook Items |  | Outcomes | Notes/Suggestions |
| :---: | :---: | :---: | :---: |
| Investigation \# 6 |  | E4, E13Z | Use the circle on the grid found on page 252 as a handout to save time.. |
| IQ | 1, 2 | E13Z, E5 |  |
| CYU | 3, 4, 5, 6 | E13Z, E4 |  |
| Investigation \# 7 |  | E13Z | This investigation is not needed to address the outcomes, therefore it is recommended that it be omitted, done very quickly, or done for homework. |
| $\mathrm{IQ}$ | $\begin{aligned} & \mathbf{7 , 8}, 9 \\ & 10,11 \end{aligned}$ | E13Z |  |
| CYU | $\begin{aligned} & 12,13,14, \\ & 15 \end{aligned}$ | E13Z | Question 13 can be done if you have students with sports interests in your class. |
| CYU | $\begin{aligned} & 16,17,18, \\ & 19, \mathbf{2 0} \end{aligned}$ | E13Z, E14Z |  |
| Focus H <br> Interpreting <br> Equations of Circles |  | E13Z, E14Z, E3Z | This information can be given during a class discussion using your own example. The example in the Focus can be reviewed by students for homework. |
| FQ | 21, 22 | E13Z, E14Z, E3Z | This question has many parts, select only enough to meet the needs of the students. |
| CYU | 23, 24 | $\begin{aligned} & \text { E13Z, E14, E3Z, } \\ & \text { E15Z, E11, E4 } \end{aligned}$ |  |
| CYU | 25, 26, | $\begin{aligned} & \text { E13Z, E14Z, } \\ & \text { E3Z, E15Z, E11, } \\ & \text { E4 } \end{aligned}$ | Change: Only necessary for students in Advanced Mathematics 12. |
| CYU | $\begin{aligned} & 27,28,29, \\ & 30 \end{aligned}$ | E15Z |  |
| CYU | 31 | E15Z |  |
| CYU | 32, 33 | E13Z, E3Z |  |
| CYU | 34 | E13Z, E3Z |  |

| Textbook Items |  | Outcomes | Notes/Suggestions |
| :---: | :---: | :---: | :---: |
| Focus I <br> Using a Graphing Calculator to... |  | E3Z, E13Z | This focus is not needed to address the outcomes. The work required to put the equation in transformational form is not worth it. |
| FQ | 35,36 | E3Z | Do question 35(b) in class as an example. |
| Focus J <br> Equations in Transformational Form |  | E3Z |  |
| FQ | $\begin{aligned} & 37,38, \\ & 39 \end{aligned}$ | E3Z |  |
| FQ | 40, 41 | E3Z | Change: Only necessary for students in Advanced Mathematics 12. |
| Investigation \# 8 |  | E3Z, E16Z | After Part D, complete the questions without graphing. |
| IQ | $\begin{aligned} & 42,43, \\ & 44 \end{aligned}$ | E3Z, E16Z |  |
| IQ | 45, 46, 47 | E16Z |  |
| CYU | 48, 49 | E3Z, E16Z |  |
| CYU | 50, 51 | E15Z |  |

Going 'Round in Circles: Circle Geometry
4.5 Examining the Circle as a Trigonometric Function (Omit)

| Textbook Item |  | Outcome | Notes/Suggestions |
| :---: | :---: | :---: | :---: |
| Investigation \# 9 |  | C36Z | This inuestigation is necessary to address outcome C36. |
| IQ | 1, 2, 3, 4, 5 | C36Z |  |
| Foas K <br> Finding From a Point ( $\omega$ os, $\sin$ ) |  | C36Z |  |
| $C Y U$ | $\begin{aligned} & 6,7,8,9 \\ & 10 \end{aligned}$ | C36Z | This information is covered in Mathematics 11 and A duranced Mathematics 11and therefore cam be couered quidkly; nating new terminology sud as terminal armand related angles. |
| $C Y U$ | $\begin{aligned} & 11,12,13, \\ & 14,15 \end{aligned}$ | C36Z |  |
| Investigation\# 10 |  | C37Z |  |
|  | $\begin{aligned} & 16,17 \\ & 18,19 \end{aligned}$ | C20Z, C37Z | This section has many questions, selet only enough to met the neers of the students. |
| $C Y U$ | $\begin{aligned} & 20,21, \\ & 22 \end{aligned}$ | C20Z, C37Z | This section has many questions, select only enough to met the neer of the students. |
| $C Y U$ | $\begin{aligned} & 23,24, \\ & 25 \end{aligned}$ | C20Z | This section has many questions, select only enough to met the neer of the students. |
| CYU | 26, 27 | C20Z | This section has many questions, select only enough to met the neers of the students. |

## Practise

| Textbook Page and Item | Description | Notes/Suggestions |
| :---: | :---: | :---: |
| $\begin{aligned} & \text { P. } 297 \text { - Question } \\ & \text { 22(c) } \end{aligned}$ | Rewording <br> Correction in TR p. 440 | "Write the mapping rule that maps the unit circle to this circle." <br> A circle is obtained from the unit circle by the mapping rule: $(\mathrm{x}, \mathrm{y}) \rightarrow(7 \mathbf{x}+\mathbf{3}, \mathbf{7 y}-5)$ |
| $\begin{aligned} & \text { P. } 297 \text { - Question } \\ & \text { 22(d) } \end{aligned}$ | Rewording <br> Correction in TR <br> p. 440 | Stretch this circle horizontally into an ellipse, where the major axis is twice as long as the minor axis. What is the equation of the ellipse? <br> The equation of the ellipse is: $\left[\frac{1}{14}(x-3)\right]^{2}+\left[\frac{1}{7}(y+5)\right]^{2}=1$ |
| $\begin{aligned} & \text { P. } 297 \text { - Question } \\ & \text { 23(d) } \end{aligned}$ | Rewording <br> Correction in TR <br> p. 440 | Stretch the original circle into an ellipse, where the major axis is five times as long as the diameter of the original circle, and the minor axis is three times as long as the diameter. What mapping rule would describe this? <br> The mapping Rule is: $(x, y) \rightarrow\left(\frac{1}{5} x, \frac{1}{3} y\right)$ |
| $\begin{aligned} & \text { P. } 297 \text { - Question } \\ & \text { 23(e) } \end{aligned}$ | Rewording <br> Correction in TR <br> p. 440 | What is a possible equation of the ellipse? <br> One possible equation is: $\left[\frac{1}{21}(x+4)\right]^{2}+\left[\frac{1}{35}(y+6)\right]^{2}=1$ |

Chapter Five

### 5.1 Probability and Quantifying the Outcomes

| Textbook Item | Outcome | Notes/Suggestions |
| :--- | :--- | :--- |
| Focus A Probability | G2 |  |
| FQ $\quad \mathbf{1 , 2}$ | G2 |  |
| CYU $\mathbf{3 , 4 , 5}$ | G2 | G2 |
| CYU $\mathbf{6}$ | Change: Only necessary for students in Advanced <br> Mathematics 12. |  |
| CYU 7, 8, 9, 10, | G2, G1 | This section has many questions, select only enough to <br> meet the needs of the students. |
| Investigation \# 1 | G1 | Both Investigation 1 and Investigation 2 are not <br> needed to address the outcome. |
| IQ $\quad 12,13$ | G1 |  |
| Investigation \# 2 | G1 | Both Investigation 1 and Investigation 2 are not <br> needed to address the outcome. |
| CYU $\quad \mathbf{1 4 , 1 5 , ~ 1 6 ~}$ | G1 |  |

Chapter Five
Probability
5.2 Counting and Probability

| Textbook Items |  | Outcomes | Notes/Suggestions |
| :---: | :---: | :---: | :---: |
| Investigation \# 3 |  | G3, G4 |  |
|  | 1,2 | G3 |  |
| CYU | $\begin{aligned} & 3,4,5,6, \\ & 7 \end{aligned}$ | G3, G4 |  |

| Focus B <br> Applying the <br> Fundamental Counting Principle to Probability |  | G3 |  |
| $\mathrm{CYU}$ | $\begin{aligned} & 10,11, \\ & 12 \end{aligned}$ | G3 |  |
| Investigation \# 4 |  | G3 |  |
|  | $\begin{aligned} & 13,14, \\ & 15 \end{aligned}$ | G3 |  |
| CYU | 16, 17, <br> 18, 19, 20 | G3 |  |
| Investigation \# 5 |  | G3 |  |
|  | $\begin{aligned} & 21,22, \\ & 23,24 \end{aligned}$ | G3 |  |
| Investigation \# 6 |  | G3 | This can be homework. <br> Correction in TR p. 473 - In Part 2, the events $M$ and N are mutually exclusive, so $\mathbf{P}(\mathbf{M}$ or $\mathbf{N})$ is equal to $\mathrm{P}(\mathrm{M})+\mathrm{P}(\mathrm{N})$. |
|  | 25, 26, <br> 27, 28, 29 | G3 | This is the first time in high school Venn Diagram are introduced, however, they are not required to cover an outcome. |

| Text | ook Items | Outcomes | Notes/Suggestions |
| :---: | :---: | :---: | :---: |
| Focus <br> The A <br> Princip | dition | G3 | Correction in student text - $\mathrm{P}(\mathrm{A}$ or B$)=190 / 200$ or 0.95 |
| FQ | 30, 31 | G3 |  |
| CYU | $\begin{aligned} & 32,33, \\ & 34,35,36 \end{aligned}$ | G4, G3 | Question 35 has many parts, select only enough to meet the needs of the students. |
| Focus D <br> Area Models and Probability, Part 1 |  | G4, G3 | When presenting the Area Model in Focus D cut graph at 15 and 20. |
| FQ | $\begin{aligned} & 37,38, \\ & 39,40 \end{aligned}$ | G4, G3 |  |
| Investigation \# 7 |  | G4, G3 | see note Focus D advance only |
| CYU | $\begin{aligned} & \text { 41, 42, 43, } \\ & 44,45 \end{aligned}$ | G4, G3 | Question 43: Rewording - Suppose that all meteorites are equally likely to strike any part of the Earth. For the next meteorite that hits the Earth, calculate the probability of each event" <br> Question 45: Correction in TR p. 482 should be $1 / 4$. The explanation is correct. |
| Focus E Calculating conditional Probability |  | G5Z, G4, G3 |  |
| FQ | 46 | G5Z, G4, G3 |  |
| CYU | $\begin{aligned} & 47,48, \\ & 49,50,51 \end{aligned}$ | G5Z, G4, G3 |  |
| Investigation 8 |  | G5Z, G4, G3 |  |
| $\mathrm{IQ}$ | $\begin{aligned} & 52,53, \\ & 54,55, \\ & 56,57 \end{aligned}$ | G5Z, G4, G3 |  |

### 5.3 Combinations and Permutations

| Textbook Items |  | Outcomes | Notes/Suggestions |
| :---: | :---: | :---: | :---: |
| Investigation \# 10 |  | G7 | Hint to help students figure out whether to use a permutation or combination - Since ' o ' is next to ' p ' in the alphabet, if 'o'rder matters then 'p'ermutations are needed. |
| IQ | 1, 2 | G7 |  |
| CYU | $\begin{aligned} & 3,4,5,6 \\ & 7 \end{aligned}$ | G7 |  |
| Focus F <br> Factorial Notation |  | A6 |  |
| CYU | 8, 9 | A6 |  |
| CYU | 10 | A6 |  |
| CYU | 11, 12 | A6 |  |
| CYU | 13, 14 | A6 |  |
| Investigation \# 11 |  | G8 |  |
| IQ | 15 | G8 |  |
| CYU | $\begin{aligned} & 16,17, \\ & 18,19, \\ & 20 \end{aligned}$ | G8, G7 |  |
| Focus G <br> Determining the Number of Possible Combinations |  | G8, G7, A6 | Information: While both ${ }_{n} c_{r} \quad\binom{n}{r} \quad$ notations valid, the $\binom{n}{r} \quad$ notation is more widely used by mathematicians and statisticians. |
| CYU | $\begin{aligned} & 21,22, \\ & 23,24 \end{aligned}$ | G8, G7 |  |
| CYU | $\begin{aligned} & 25,26, \\ & 27,28 \end{aligned}$ | G8, G7 |  |
| CYU | 29 | G8, G7 |  |

| Textbook Items |  | Outcomes | Notes/Suggestions |
| :--- | :--- | :--- | :--- |
| CYU$\mathbf{3 0 , 3 1}, \mathbf{3 1}$ <br> $\mathbf{3 2}$ | G8, G7 |  |  |
| CYU $\quad \mathbf{3 2 ( c )}, 33$ | G8, G7 |  |  |
| CYU $\quad \mathbf{3 4}$ | G8, G7 |  |  |

Probability
5.4 Combinations, Permutations, and Probability

| Textbook Items | Outcomes |  |
| :--- | :--- | :--- |
| Focus H <br> Applications to <br> Probability | B8, G8 |  |
| FQ $\quad \mathbf{1}$ | B8, G8 |  |
| CYU $\mathbf{2 , 3 , 4 , 5}$ | B8, G8 |  |
| CYU$\mathbf{6 , 7 , 8}$, <br> $\mathbf{9 ( a , b}$ | B8, G8 |  |
| CYU$\mathbf{9 ( c ) ,}$ <br> $\mathbf{1 0 ( a , ~} \mathbf{c})$, <br> $\mathbf{1 1 , 1 2}$ | B8, G8 |  |
| CYU$\mathbf{1 3}, \mathbf{1 4 ,}$ <br> $\mathbf{1 5}$ | B8, G8 |  |

Chapter Five
5.5 Applying Probability and Combinations to the Binomial Expansion (Advanced Mathematics 12 only)

| Textbook Items |  | Outcomes | Notes/Suggestions |
| :---: | :---: | :---: | :---: |
| Investigation \# 12 |  | G10Z |  |
| CYU | 1,2 | G10Z |  |
| Investigation \# 13 |  | G10Z | The use of the BLM in the TR is recommended. |
| IQ | 3 | G10Z |  |
| CYU | 4, 5, 6, | G10Z |  |
| CYU | 7 | G10Z | Clarification: It is important to distinguish between conjectures that can be made by looking at some examples and formal proofs. <br> Rewording: "Show that each identity below holds for the triangular array you made using combinations. Prove each identity." |
| CYU | 8 | G10Z |  |
| Investigation \# 14 |  | G10Z, G9Z |  |
| IQ | 9, 10 | G10Z, G9Z | It is recommended that question 14 be completed before question 9 . |
| CYU | $\begin{aligned} & 11,12, \\ & 13,14 \end{aligned}$ | G10Z, G9Z | It is recommended that question 14 be completed before question 9 . |
| Focus I Raising Polynomials to Any Power |  | G10Z, G9Z |  |
| FQ | 15, 16 | G10Z, G9Z |  |
| CYU | $\begin{aligned} & 17,18, \\ & 19,20, \\ & 21,22 \end{aligned}$ | G10Z, G9Z |  |

Probability

Review

| Textbook Page <br> and Item | Description | Notes/Suggestions |
| :--- | :--- | :--- |
| P. 355 - Example 4 | Rewording | Based on this, what is the probability that rain is <br> falling but not affecting the east side?" |

## Recommended Resource List

## Grade 12 Academic /Advanced

## Each Student Should Have:

| RESOURCES | AVAILABILITY | COST |
| :---: | :---: | :---: |
| Mathematical Modeling, Book 3 | ALR | \$32.00ea. |
| Orchard Hideout (Optional) | ALR | $\$ 8.00 \mathrm{ea}$. |
| TI-83 Calculator <br> (Ideally each student should have one calculator <br> to use in class and at home) | ALR | $\$ 1360.00$ <br> (10 pack) |

## Each Teacher Should Have:

| RESOURCES | AVAILABILITY | COST |
| :---: | :---: | :---: |
| Mathematical Modeling, Book 3 Teachers' Resource | ALR | \$70.00 ea. |
| Orchard Hideout, Teachers' Guide (Optional) | ALR | \$26.00 ea. |
| Atlantic Canada Mathematics Guide: <br> Mathematics 12 /Advanced Mathematics 12 | Dept. of Ed. | free |
| TI-83 with View screen or Presenter | ALR | \$522.25 ea. |
| Alge-Tiles Resource Binder | ALR | \$30.95 ea. |
| Alge-Tiles Overhead or |  |  |
| Magnetic Set |  |  |

## Every Classroom Should Have:

| RESOURCES | AVAILABILITY | COST |
| :---: | :---: | :---: |
| Alge-Tiles |  | $\$ 175.00$ <br> (set of 15 <br> One $x$ set per two students <br> One y set per two students |
| ALR |  | $\$ 10.00$ ea. |

Every School Should Have:

| RESOURCES | AVAILABILITY | COST |
| :---: | :---: | :---: |
| Calculator-Based Ranger System (CBR) - 8 | ALR | \$141.27 ea. |
| TI-Graph Link Software and Cable -1 | ALR | $\$ 95.00$ ea. |

[^0]:    * This is a good place for a test.
