

# **Here's what the research says about integrating Information Technology:**

**IT increases motivation**

# **Here's what the research says about integrating Information Technology:**

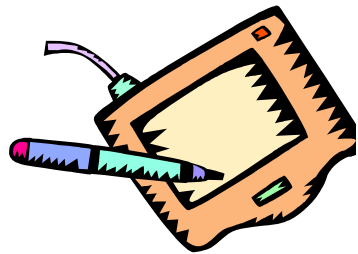

**IT develops higher  
levels of thinking**

**Here's what the  
research says about  
integrating Information  
Technology:**

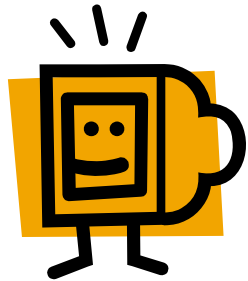

**IT provides  
Authentic Learning**

# **Here's what the research says about integrating Information Technology:**

**IT Improves writing  
when combined with  
the Authoring Cycle**

# **Here's what the research says about integrating Information Technology:**

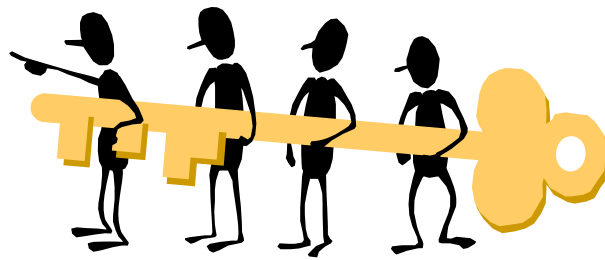

**IT lets students  
learn independently**

# **Here's what the research says about integrating Information Technology:**

**IT leads to fewer  
discipline issues**

# **Here's what the research says about integrating Information Technology:**

**IT supports Cooperative  
Learning**

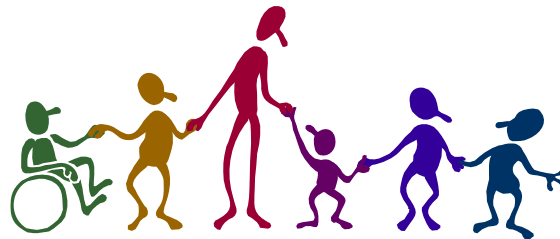

# **Here's what the research says about integrating Information Technology:**

**IT provides a real  
audience**

# **Here's what the research says about integrating Information Technology:**

**IT provides more variety  
in the classroom**

# **Here's what the research says about integrating Information Technology:**

**IT allows students  
to demonstrate  
their learning**

# **Here's what the research says about integrating Information Technology:**

**IT allows teachers to  
understand student  
thinking**

# **Here's what the research says about integrating Information Technology:**

**IT provides access to experiences  
and information not  
otherwise available  
(Virtual Field Trips)**
