

Electrifying Creatures!

Build a creature from computer components. You may use any of the materials provided in order to create your creature.

Give your creation a name, and think about a motto or slogan which would be appropriate for it.

You can also use the available materials to create a suitable habitat for your creature.

Materials available:

pipe cleaners

googly eyes

modeling clay

feathers

florist's wire

decorative materials

glue

computer bits

Your creature, with any descriptions or other documentation you would like to provide, will be displayed for viewing on Friday morning.
