

Neighborhood MapMachine Assignment

In MapMachine go to *Create new map*. Choose medium size.

- Put in a highway running north to south.
- Add 2 streets running east to west.
- Add 3 houses to each street.
- On the southern side of the map put in train tracks running east-west. Add a train station, near the highway and on the train line.
- On the highway near the train tracks put in a factory.
- On the highway put in a store and a post office.
- In the lower southeast corner put in a small park with two swing sets and two trees. Three more trees can be added anywhere.
